advice.

05. Fire Fighting Measures

Avoid inhalation of fumes evolved in a fire.
Use self-contained breathing apparatus when fire fighting.
Extinguish with sand, earth, water spray, carbon dioxide or powder extinguisher.
Do not use water jet.
If containers become heated, over pressure with release of combustible material and
even explosion may occur. To avoid this, they should be kept cool by spraying with
water from a safe distance.

06. Accidental Release Measures

Inhalation of high-odour materials may cause discomfort or nausea and should be avoided by providing good ventilation during containment and disposal.

In case of impossibility of this and when particularly when substances having exposure standards are present the use of an organic vapour respirator is recommended.

Remove ignition sources and provide proper ventilation.

Wash the affected area with detergent and water.

Comply with local regulations for waste disposal.
